

> **Side Plow Shield S3-HDU / truck mount**

05-09

The truck mounted Side Plow Shield S3-HDU is a special plow construction which rests on a height adjustable supporting plate, alternatively on a stabilizer wheel, while in working position.

The plow shield is fitted with a a relocatable mounting bracket which will be attached to a front support hinge on the truck. A steel cable serves as an extra security device.

Standard:

- > Marker light (diode)/3-pin contact.
- > Hydraulic line and coupling *Tema 5011/5021*.
- > Rear coupling bolt and screw-on mounting bracket.
- > Special plow steel material.

Accessories:

- > Wear plate arrangement.
- > Wheel equipped: improved noise emission and steel wear.
- > Rubber cutting cassette for use as mud side plow shield.
- > Mounting bracket: 04-1004/04-1004-1

Note!

The carrying truck must be fitted with hydraulic extension model # US-84 and parallelogram.
